OUR FINANCIAL STANDING GOOD

Jean Revillion says Both Paris and New York Have High Opinion of Canada's Standing.

Jean Revillion has returned to Edmonton from a tour of the country in Paris. In a conversation with a Bulletin representative this morning Mr. Revillion stated that a company interesting him in the development of a new oil field in Alberta had been in New York and Paris, was the good financial standing reported by Canada. Mr. Revillion stopped en route at Chicago and New York, where there are branches of the big Canadian banks.

"The outlook for Canada financially is good," he said. "Everyone looked upon us as sound, and I learned in New York that numbers of American investors will return to Canada as soon as once this crisis is past. They express their belief in it as a steady country, similar to the United States, with natural resources and growing population would justify their investments."

"Was there any financial depression apprehended?"

"In the United States, France has never been more prosperous. It is, you know, one of the strongest countries in the world. The same large French investors, contrary to general opinion, are quite satisfied with their money here. There is no depression or some quality that brings them all right in the end. They carry practically all the risk, but Canada is safe."

Russia also owns immense sums to France, but the country seems to be as safe as Canada. The country never seems to be shaken by financial panics in either places. There was the Pan-American Exposition, but that was a national affair and was of no consequence."

"Will Help the West?"

"How did conditions in New York appear to you?"

"I noted a marked improvement in my return. Things monetary are looking up there, and money is loose. The same is true in the United States that Canada, and over the whole period of time, the smaller dealers will find it more convenient—and perhaps more profitable—to do business in Canada and get credit there. All this will tend eventually to the more rapid upturn."

"What novelties had Paris to offer visitors when you were there?"

"Paris is always beautiful and for tourists. Science and art are making great strides there. One remarkable thing is the new dirigible aeroplane. There are five of them now in Paris, and they are used to them to run in and out to their shooting boxes or to make short pleasure jaunts. They are very fast, and it is unusual to see one floating in the upper air as you walk along the streets of Paris. They are very popularly used."

"They are practical machines travelling at the rate of 30 miles an hour. They have the ability to go to the balloon garage, of course. Another interesting bit of machinery which I saw was a motor boat used to look into what was the man's motor-style for motoring along snowy roads. That something like that is being used in Alberta. Do you think that I did find time to get down to see them, but I intend sending for further information."

ROCKEFELLER'S BIG GIFT.

To Chicago University—Total Bank Assets \$2,000,000.

Chicago, Jan. 6.—John D. Rockefeller, Jr., gave away millions into the coffers of the University of Chicago. The oil king's latest present to that school totals \$2,000,000, and raises the figure of his total contributions to the university to \$25,000,000.

The gift was announced to the world yesterday by Dr. John D. Rockefeller, Jr., to Martin A. Ryerson, president of the board of trustees.

ONTARIO ELECTIONS.

Will Be Held This Friday—With Timber Wolf.

Pot Arthur, Jan. 6.—A timber wolf, while in the bush, got into town, unexpected met a timber wolf, and a long and bitter struggle ensued. Cooper finally succeeded in killing the animal.

Newmarket, Ont.—A timber wolf, which had been captured at the head of Lake Ontario, was shot and killed.

Montreal, Jan. 7.—The news of the ship's safety was received with joy as far as the 1,000 passengers and crew on board. The vessel, the *Alma*, which was adrift last September, was found to be in condition to sail again.

The principal business of the firm was done in the Northwest and the rest resulted from a large account of customers who had been among the firm's debtors before the war.

Several Minneapolis accounts ended the first month of the year, largest of which was \$100,000, and nearly all of whom had accepted the settlement proposed by the firm in fifty cents on the dollar.

Shorter and shorter were the periods between the assignment of bills and the time of the assignment figure \$110,000.

The liabilities are put at \$100,000, and the assets at \$120,000, which would leave the assets at \$89,225, as against an average of \$120,000.

The balance of assets are put at approximately \$84,000, and the debts at \$100,000, leaving a balance of \$15,000.

On the basis of the figures given, the firm's assets are put at \$100,000, and the debts at \$120,000.

MOUNT ROYAL AT QUEENSTOWN

Had Almost Reached Halifax When She Drifted Back Across the Atlantic.

London, Jan. 7.—The C. P. R. steamer Mount Royal, which is known to be being so long overdue, was bound to have gone to the bottom of the Atlantic, but she is still afloat, though the hull is five thousand men were put to work to-day. It will be going full blast by the end of two weeks.

CONFIDENCE RETURNING.

Detroit, Jan. 6.—Following the recent strike of lumbermen in the timber districts of Michigan, confidence is returning to the lumber industry.

Michigan, Jan. 6.—The report that the plant at Duluth, Minn., was one last night looked for during the last eleven days. She is proceeding to Queenstown.

THE MANITOBA LEGISLATURE.

Members Resume Sittings Last Night After Christmas Holidays. Debate on Speech from Throne.

WAR IS INEVITABLE.

Paris, Jan. 6.—The press here assume that war between the U.S. and Japan is inevitable and advise Americans to leave the country at night, and to be vigilant in case of attack.

Mr. H. L. Bowles, of the British Embassy at Washington, that the Franco-American tariff negotiations at Washington had been suspended and an agreement will probably be signed at Washington to-day or to-morrow.

France-American Tariff Arrangement.

Paris, Jan. 6.—The Government has agreed to the demands of the American Ambassador at Washington, that the Franco-American tariff negotiations at Washington had been suspended and an agreement will probably be signed at Washington to-day or to-morrow.

NEW YORK EXCHANGE HOUSE TO RESUME.

Watson & Co., whose sensational panic losses added to the coal credit and will continue business.

Watson & Co., whose sensational panic losses added to the coal credit and will continue business.

New York, Jan. 7.—The stock exchange losses of Watson, 24 Broad street, who failed last September, filed with the New York Stock Exchange, have been paid off. The assignment figure \$110,000. The liabilities are put at \$100,000, and the assets at \$120,000, which would leave the assets at \$89,225, as against an average of \$120,000.

The balance of assets are put at approximately \$84,000, and the debts at \$100,000, leaving a balance of \$15,000.

Panic Stricken Passengers.

London, Jan. 7.—Disasters from Queenstown alone of the many suffered by the C. P. R. in its history.

The Mount Royal, which is known to be being so long overdue, was bound to have gone to the bottom of the Atlantic, but she is still afloat, though the hull is five thousand men were put to work to-day. It will be going full blast by the end of two weeks.

The Mount Royal was sighted yesterday by the Wivins, which arrived from Queenstown this morning.

DISTRICT NEWS

MUNDARE.

Bulletin News Service.
Several men of this place are away on winter hunting excursions—Mrs. H. M. Mitte, to Syracuse, N.Y.; Mrs. A. E. Moore, to Eureka, Calif.; Mr. M. R. McLean, to Alaska. Others from out of town have left from this point for the east.

Jan. 2 was a very busy day, teams of horses and oxen crowding the streets trying to get out.

Mundare has a Board of Trade. J. H. Linton is president and Frank J. May, vice-president. The board has decided to purchase apparatus for protection against fire.

The national population is calculated to be now about one hundred and fifty.

A. M. Thompson of Vegreville was in town on business today.

Mr. W. C. MacEachern is visiting his friend Mr. Beauchamp of the Mundare hotel.

Mr. and Mrs. John P. E. T. and Jones from South Wales, England, are opening a hardware and saddle store.

In the same building, Lamont, has started a pool-room here.

A barbershop is another acquisition. Mr. H. C. Johnson, formerly of Lethbridge, J. E. Hamilton, B. A., late of Beaver Lake, S.D., takes charge of the Mundare school. He has been teaching in Alberta having retired to resume study.

Mrs. G. M. Gandy is again taking charge of the Dawson school district just north of town.

Another school to the N.E. opens for the new year with W. M. Whalen in charge.

The Government bridge-gang under Mr. W. H. McLean, at present working on Bear Creek near the north of Bear Lake.

Mr. Chas. E. Shaw, druggist, has moved into his new and more commodious quarters on the west side of Main street, and is doing a good business.

Mr. and Mrs. J. C. MacEachern, having lately arrived from the former family residence in Wapella, Sask.

J. J. Clarke, formerly of A. T. Clarke's livery and feed stable.

Some of the grades on the East Bear Lake road are being repaired.

Any one passing along there before the next snow storm can see where one trav-

THE WHEAT MARKET.

Winnipeg, Jan. 6.—There was little change of course in the market yesterday. Shipments were in excess of the estimates, and imports continued low. There was a slight increase with the national reaction from Saturday, a high level brought wheat lower and the market was quiet. The local market declined about $\frac{1}{4}$ to 1 cent.

Winnipeg markets were very strong, wheat was quoted at 60 cents per bushel for exports was good, and in spite of the break in the American market, Winnipeg's market was firm.

Winnipeg, Jan. 5.—For February, $\frac{1}{4}$ to 1 cent; for March, $\frac{1}{4}$ to 1 cent; for April, $\frac{1}{4}$ to 1 cent; for May, $\frac{1}{4}$ to 1 cent; for June, $\frac{1}{4}$ to 1 cent; for July, $\frac{1}{4}$ to 1 cent.

Winnipeg, Jan. 5.—Receipts show a small decline. Trade was fairly active in all grades.

Winnipeg cash wheat 1 Northern, 41 $\frac{1}{2}$ to 42 $\frac{1}{2}$; 1 Western, 40 $\frac{1}{2}$ to 41 $\frac{1}{2}$; 2 Northern, 39 $\frac{1}{2}$ to 40 $\frac{1}{2}$; 4 Northern, 38 $\frac{1}{2}$ to 39 $\frac{1}{2}$; 5 Northern, 37 $\frac{1}{2}$ to 38 $\frac{1}{2}$; 6 Northern, 36 $\frac{1}{2}$ to 37 $\frac{1}{2}$; 7 Northern, 35 $\frac{1}{2}$ to 36 $\frac{1}{2}$; 8 Northern, 34 $\frac{1}{2}$ to 35 $\frac{1}{2}$; 9 Northern, 33 $\frac{1}{2}$ to 34 $\frac{1}{2}$; 10 Northern, 32 $\frac{1}{2}$ to 33 $\frac{1}{2}$; 11 Northern, 31 $\frac{1}{2}$ to 32 $\frac{1}{2}$; 12 Northern, 30 $\frac{1}{2}$ to 31 $\frac{1}{2}$; 13 Northern, 29 $\frac{1}{2}$ to 30 $\frac{1}{2}$; 14 Northern, 28 $\frac{1}{2}$ to 29 $\frac{1}{2}$; 15 Northern, 27 $\frac{1}{2}$ to 28 $\frac{1}{2}$; 16 Northern, 26 $\frac{1}{2}$ to 27 $\frac{1}{2}$; 17 Northern, 25 $\frac{1}{2}$ to 26 $\frac{1}{2}$; 18 Northern, 24 $\frac{1}{2}$ to 25 $\frac{1}{2}$; 19 Northern, 23 $\frac{1}{2}$ to 24 $\frac{1}{2}$; 20 Northern, 22 $\frac{1}{2}$ to 23 $\frac{1}{2}$; 21 Northern, 21 $\frac{1}{2}$ to 22 $\frac{1}{2}$; 22 Northern, 20 $\frac{1}{2}$ to 21 $\frac{1}{2}$; 23 Northern, 19 $\frac{1}{2}$ to 20 $\frac{1}{2}$; 24 Northern, 18 $\frac{1}{2}$ to 19 $\frac{1}{2}$; 25 Northern, 17 $\frac{1}{2}$ to 18 $\frac{1}{2}$; 26 Northern, 16 $\frac{1}{2}$ to 17 $\frac{1}{2}$; 27 Northern, 15 $\frac{1}{2}$ to 16 $\frac{1}{2}$; 28 Northern, 14 $\frac{1}{2}$ to 15 $\frac{1}{2}$; 29 Northern, 13 $\frac{1}{2}$ to 14 $\frac{1}{2}$; 30 Northern, 12 $\frac{1}{2}$ to 13 $\frac{1}{2}$; 31 Northern, 11 $\frac{1}{2}$ to 12 $\frac{1}{2}$; 32 Northern, 10 $\frac{1}{2}$ to 11 $\frac{1}{2}$; 33 Northern, 9 $\frac{1}{2}$ to 10 $\frac{1}{2}$; 34 Northern, 8 $\frac{1}{2}$ to 9 $\frac{1}{2}$; 35 Northern, 7 $\frac{1}{2}$ to 8 $\frac{1}{2}$; 36 Northern, 6 $\frac{1}{2}$ to 7 $\frac{1}{2}$; 37 Northern, 5 $\frac{1}{2}$ to 6 $\frac{1}{2}$; 38 Northern, 4 $\frac{1}{2}$ to 5 $\frac{1}{2}$; 39 Northern, 3 $\frac{1}{2}$ to 4 $\frac{1}{2}$; 40 Northern, 2 $\frac{1}{2}$ to 3 $\frac{1}{2}$; 41 Northern, 1 $\frac{1}{2}$ to 2 $\frac{1}{2}$.

SUNDAY SCHOOL MEN CONFER.

Discusses Plan to Enlarge Scope of International System.

Edmonton, January 6.—A conference of men representing all phases of Sunday school work in the city met yesterday to consider the proposition of enlarging the scope of the international system.

The general sentiment seemed to be in favor of continuing the present international system, and the adoption of graded instruction in addition thereto.

After the speakers during the day were Professors Ira M. Price, of the University of Chicago, Rev. Dr. E. L. Bowes, of the University of Western Ontario, and John Sampson, D.D., of Louisville.

Sir Hilbert Tupper Addressed.

Vancouver, Jan. 6.—Sir Hilbert Tupper was wailed on at his residence this evening, and asked advice concerning nomination for Vice-Consul of Canada, with full diplomatic privilege.

He said he had accepted nomination for Victoria, B.C., and considered it was the best place for him to go, as his health did not permit him to go to the extreme borders of Canada. Sir Chas.

Her endeavoring to use his horses well, found he had made a mark on the world. Mundare, Jan. 2.

LLOYDMINSTER.

F. A. Walker, M.P.C., of Fort Saskatchewan, and S. S. Irwin and H. C. Lytle are in Battleford today on business.

Mr. Irwin is from Peterborough, Ont., and Mr. Lytle from New York. They are engaged in purchasing apparatus for protection against fire.

The National Insurance Company of Toronto are in possession of H. R. Smith's department-store and are making a slaughter sale of the entire stock.

The Canadian Pacific Railway Co. has a locomotive which is to be used for the construction of the new bridge over the North Saskatchewan River, between Edmonton and Lethbridge.

The new bridge will be held on Saturday, Jan. 12, at 1 p.m.

The public meeting called to form the village school district and elect trustees, took place in R. W. Miller's hall on Saturday evening.

A homesteader may, if he so desires, perform the required residence duties by living on his land or by having a relative or other person live on his land for 30 acres in extent, in the vicinity of his homestead. Joint ownership of the land will not meet his requirement, if either (or both) is deceased.

(3) A homesteader is required to perform the conditions under one of the following plans:

(a) A homesteader's residence, cultivation and the land in each year during the term of three years.

(b) A homesteader may, if he so desires, perform the required residence duties by living on his land or by having a relative or other person live on his land for 30 acres in extent, in the vicinity of his homestead. Joint ownership of the land will not meet his requirement, if either (or both) is deceased.

(c) A homesteader intending to perform his residence duties in accordance with the above who lives with his wife, or with a son or daughter, or with a son or daughter and his wife, must notify the Agent for the district of such intention.

The settler must give six months notice in writing to the Commissioner of Lands and Works at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS.

Coal—Coal mining rights may be obtained by leasehold or by annual rental at an annual rental of \$100 per acre.

Not more than 2,560 acres may be leased at one time, and no less than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Quarries—A person eighteen years of age or over, having discretion to lease or grant leases for quarrying.

The lessee must pay a fee of \$100 for each claim in the first year.

The lessee must pay a fee of \$100 for each claim each year paid to the Commissioner of Lands and Works.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Pig iron—A quarry may obtain two leases for a period of twenty years, renewable at the discretion of the Minister of Lands and Works.

The leases shall have a dredge or pump installed on the land or a claim staked out.

The lessee must pay a fee of \$100 for each claim each year paid to the Commissioner of Lands and Works.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Gravel—A gravel lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Minerals—A mineral lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Metals—A metal lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Oil—An oil lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Gas—A gas lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Leases may be granted for periods not exceeding 20 years, renewable for 20 years.

Land—A land lease may be obtained by leasehold or by annual rental.

Not more than 160 acres may be leased at one time.

WITH THE FARMERS

IMPROVEMENT OF PRIZE LISTS.

In his address before the agricultural Societies' convention at Regina recently, George Harcourt, B.S.A., Deputy Minister of Agriculture for Alberta, said: "The time has come for the Improvement of the Prize List." The address has had the effect of stirring up the enthusiasm of all the farmers in the west regarding the new year. The address was made the subject of editorial comment in the *Regina Leader*. The bulk of the article and editorial comment are reproduced in full.

The subject implies that the average prizelist is not good enough, and is not perfect in that it needs improvement. The question then arises where it does need to be improved, and how improvement can be made. In order to better understand the situation let us analyze it a little. In the first place, the average prizelist should be to encourage the production of an improved class of stock, grain, vegetables, fruit, etc., and so on. This was the original intention. I take it, and is the only ground on which a prize list can be justified, relating to agricultural fairs. Viewed from this standpoint one must admit that much of the money raised every year for fairs and shows is wasted.

The former Minister of Agriculture in the West said: "There was no money he could give to those who went to the agricultural societies because there was absolutely no return on their investment." The method of conducting the average fair is out of touch with the real situation as it exists in the West, according to some. One critic has said: "The average fair is an expensive butchery to divide a little government money among many people. I think that criticism comes very near the mark for some fairs, as they have lost very largely all educational value that once had."

Why is that? To my personal knowledge, the fairs have also been a means of bringing about a monetary change in the live stock classification of the average prize list in the last quarter of a century. I think we are safe in saying another twenty years to it. One instance will suffice. The average classification of cattle in 1887 was: Bull, three years old and over; Bull, two years old and under; Bull, one year old and under; Two-year-old heifer.

This is time-worn, but I don't know how you can improve it unless you cut it out altogether. It is a good idea or a bad idea, whichever it may be, that this classification was devised there were not as many pure breeds throughout the country as there are now. The idea was to encourage the breeding and improving of improved stock. Now no goes on to say that the average bred stock, herds and flocks of all leading breeds are widely disseminated, and the average prizelist has decided that the improved breeds are the best, and nearly everyone is using them. Why then, offer prizes to the herefords, angus, and others in the neighborhood of any fair when it is the interest of these breeds to have the best condition possible? To offer him money to do what he ought to do in his own interest is to reward him.

The breeder is a director and thus interested in framing the prize list which he helps to make, and he should be charged with graft—he would be if he were in municipal politics.

In fact, we have had little or no improvement in the development along all lines of agricultural work and the prize list has stood still. It is the same with the average. The great progress that has been made during the last two decades, and even the last ten years, in the field of agriculture, there is no way so effective in demonstrating the superior qualities of an animal, plant, or product as to have it as a breeder (and feeder) to bring him out in fine show condition. If I contend it is a place to offer a prize, then it is a place to offer a prize that is educational and that is what the educational influence and we want something new. As in politics we want to have a "new deal," changes, and yet it is hard and long through the land. Let us get up to date with the latest, and if the educational event as it was originally intended it should be. A step in advance all along the line is wanted. Some day we shall attain educational in accordance with present day truths and principles.

I prefer to criticize than to suggest improvement, because improvement in this case can only be brought about by agitation and education along new lines. At present the framing of a prize list is a thankless task and any uprising of present plans must be met with opposition by those or those who have been in the habit of receiving cashes of the spills will have to be put at a standstill. It is strange, however, that you know, how we used to habits and customs of our fathers and mothers, and the like, necessary for the directors to thought to bring about a fulfillment of these needs.

The following suggestion, along the various lines of work may be helpful. Live Stock—At most fairs all prizes for cattle, sheep, swine, and horses should be given to the fair. Leave this to the fair men. It is no longer necessary to demonstrate the superiority of the breeds, as the past that stage now and it is a business proposition which should stand on its own merit. The records of the past can be found out at the big shows. The owners of the stock might be asked to give out the stock might, however, be given free of charge, and if thought advisable, so the people can compare animals and make a selection.

Prizes might be continued in the grade classes as at present, because we have the best of the breeds much superior to the pure-bred ones. Here is where the educational effect will be noticed. In no case would I

allow an animal that has won a prize in one class to show again in the same class next year. I do not mean to detract from the work of the fairs, but I hold the next season. This would I think, encourage new exhibitors to come out because it would be better for the exhibitors and the public would be there to keep the prize year after year. I would also have classes for animals that had never won a prize before or that had never won a prize once.

This article would be incomplete without a few words on the stock-judging. The subject is to be discussed in another paper I will pass it with a brief note. The stock-judging is not expensive, but need to be original. A horse race confined to farmers would be good sport as a promotional idea. Harnessing and unloading teams would be good, and of that sort are just as good as more expensive affairs.

Handbooks should be handbooks of information. Where new classes are introduced, the rules should be clearly defined and simple, given about preparing exhibits and what is expected to be brought in.

Our fairs are too short in their descriptive matter in many cases.

Farmers are hungry for information, and there is a great opportunity for society supply this information, because of the lack of any educational value in the annual reports of the horse breeders' under the Horse Breeders' index.

Our fairs are too short in their descriptive matter in many cases.

Cut out the classes in horses and insert a miscellaneous class with prizes to the judge to please.

I suggest a good price for the stock-judging classes, and the same for the other classes, as far as possible.

Cut out the classes in horses and insert a miscellaneous class with prizes to the judge to please.

Second Annual Stock-Taking Sale

Huge Success

We believed that the announcement of our sale would create a great deal of interest, but we were hardly prepared for the enthusiasm displayed by our customers that thronged our store all day Friday and Saturday. We are pleased because we believe this a tribute to the genuineness of the bargains we are offering—of course we are offering great reductions—but price reductions alone will not account for the great selling that has opened this sale. Every article or garment offered during this sale are new seasonable goods and of the best quality. Each day from now until January 15th will have inducements of its own, and each and every one will do its part to make this WHIRL OF BARGAINS one of the greatest sales this store has ever had or it's customers ever participated in. We strongly advise you to be in the throng of buyers at this sale—a sale such as you have rarely, if ever, seen before in Edmonton.

Dress Goods

5 pieces Dress Sorge, in black, blue, brown and green, regular 60c, sale price,	.45
51 in. wide Dress Tweeds, dark colors, regular 1.00, sale price,	.60

AROUND THE CITY

LOCALE.

The directors of the Western Lumber & Mines, Limited, will meet at Clegg's Cafe at 1 o'clock on Wednesday.

A large number of dogs impounded in the city pound have been released to their owners, many of whom have been having paid by the owners.

The runners of the city fire apparatus were racing yesterday, and wheels outdistanced owing to the number of the past few days, making the slingers in the lead.

The Skating Club held their third monthly last night at the Thistle rink. There was a good crowd. The centre of the ice was used at all times as a rink.

A united prayer meeting and socials of the W.H.I. and W.F.M.S. auxiliaries is to be held at the First United Presbyterian Church on Friday, January 10th, 1920, at three o'clock.

Under the direction of Irving Boys, the author of "The Author," produces early in February Haddon Chambers' interesting play, "The Tyrants of the Earth," which will be produced by St. Charles Wyndham.

The horse attached to one of Lewis' buggies was found dead in the rear of his stable on Third street yesterday afternoon. The wagon was upset; the contents spilt out, and the driver, who was with the master of the horse, Mr. McHugh, reported the matter to the police. This morning they were again informed by Mr. McHugh that the horse had died.

The telephones and electric light departments in the new telephone building are changing places today, the former being moved downstairs and the latter upstairs. The electric light will be future kept down stairs.

The Y.M.C.A. gymnasium apparatus has reached the custom house here and will be put up in the new building. It will be open to the public as a general gymnasium as soon as it is in operation under a first-class manager.

A. W. Foley, poultry superintendent of the Department of Agriculture, with F. J. Mason, of Ottawa, one of the most prominent men in the field of the meat industry, left last night for Fort Saskatchewan, where they will lecture on poultry raising to the citizens of the province. Mr. Foley is well known as an expert poultryman and live stockman and with Mr. Mason will speak to the people of the province. Their addresses throughout the country should be very beneficial.

Fort Saskatchewan they will journey on down the N.W.R. and then eat across to the P.R. and lecture in towns like that line.

AT THE HOTELS.

Alberta—H. H. Carlile, Hastings, E. A. G. O. Roy, O'Brien, T. J. Jellett, Cardston, T. H. Woodhead, Cardston; G. W. Walker, Vegreville, N. Campbell, Vegreville; J. Kenny, Little Rock, Alta.; J. King, King Edward; T. McDonald, Lacombe.

Calgary—J. Cartwright, Vegreville; F. Portman, H. H. Carlile, Hastings, G. C. Bell, D. Pickering, Bon Accord; J. H. Bailey, Wetaskiwin; T. H. Woodhead, Cardston; G. W. Walker, Vegreville, N. Campbell, Vegreville; J. Kenny, Little Rock, Alta.; J. King, King Edward; T. McDonald, Lacombe.

Winnipeg—Black, Ind. Agency; W. A. Saunders and wife, Buxton; Atta, G. Inglis, Red Deer; A. F. Kinney, Red Deer; W. G. MacLennan, Parson, N.D.

Quebec—J. Voight, Morinville; A. Benjamin, Morinville; R. J. Peacock, Parson, N.D.; E. Parin, Athabasca; M. Saison, Red Deer; E. J. Campbell, Millet.

MAY FOUND GUILTY.

Before Justice Taylor this morning the trial of George K. Hay, charged with stabbing his employer, George E. Edwards, took place, and it was decided that Hay was guilty and must remain in prison until Thursday morning. The sentence took place near the Brantford jail, and the time was between seven and eight o'clock, when Hay inflicted a fatal stab on Edwards' neck, and the latter fell to the rear of the shoulder in endeavoring to quiet other officers. This morning Hay was on the stand, and he pointed blank that he had seen Edwards on the evening in question, but that he had no knowledge of what led him to his evidence and found him guilty.

The case for the prosecution was conducted by C. C. Crosson, of Brantford, and for the defence by W. B. Allard.

Today morning the case of the King vs. George McKay, charged with stealing the sum of \$177 belonging to Peter Robertson, was heard. McKay was lost in a taxi cab when he had been driving. H. H. Robertson was present, and the defendant in this case.

ANTI-JAPANESE RESOLUTION PASSED AT TRADES COUNCIL.

The meeting of the Trades and Labor Council, at which the resolution of officers took place, after the routine business had been disposed of, Dr. George H. Robertson, after a vigorous speech, a resolution condemning the Japanese outrages on the Vancouver cannery workers, upon the government to prevent the bringing of any portion of Alberta by the Japanese. His remarks provoked a general discussion, and the delegates declaring themselves opposed to the introduction of racial principles in the government of Alberta.

The resolution, however, was carried, and the delegates voted to support the resolution of the Japanese workers throughout the Dominion, calls on all Labor bodies to make legislation for the protection of the Chinese in the supreme issue at the forthcoming election, and to support the Chinese in their struggle with the Japanese.

The resolution, however, was carried, and the delegates voted to support the Chinese in their struggle with the Japanese.

PERSONALS.

C. G. Alford, divisional engineer of the Grand Trunk Pacific Railway at Edmonton, will meet at Clegg's Cafe at 1 o'clock on Wednesday.

A. N. Beallion, superintendent of bridges for the Grand Trunk Pacific, will be in town this evening. He is inspecting the work on the bridge over that river.

SAMSON RESUMED.

The practice for the Oratorian "Samson" are to be resumed this evening in the basement of the First Presbyterian Church on Friday, January 10th, 1920, at three o'clock.

The Samson Club held their third monthly last night at the Thistle rink. There was a good crowd. The centre of the ice was used at all times as a rink.
